- Git & Git Hub

## Education

---

Bachelor of Technology in Computer Science and Engineering  
*Jain (Deemed-to-be) University Bengaluru, India*

*August 2025 – Present*

# Projects

## [BioLensAi](#)

Developed an android application using Flutter that calculations for BMI, classifies sugar intake levels, and proposes personalized diet plans using artificial intelligence. Also, the application incorporates a scanning feature for the user to determine the appropriateness of certain foods using the application by recognizing qr codes bearing the food suitability details.

*Aug 2025 – Present*

## [Local Bazar](#)

Local Bazar is a web-based platform I created using AI , PHP, CSS, JavaScript, MySQL to promote and support local businesses and Nepali products. The goal of the project is to connect local sellers directly with buyers through a simple, user-friendly, and visually appealing online marketplace.

*July 2025 – July 2025*

# Certification

---

Introduction To SQL  
*Sololearn - [Certificate](#)*

*August 2025 – Present*
